DR. ROBERT GOLDMAN

To each of the graduating seniors goes my congratulations and best wishes for the years ahead. It is the wish of the entire Brockton faculty that our work in helping you prepare for these future years has been successful. I hope that each of you will look on us fondly as we look upon you. You have been our reason for teaching and only through your success we will experience success.

Dr. Robert W. Goldman
Administrator of Secondary Education

MR. JOHN MAHONEY

When you receive your 1972 Yearbook, your days at BHS will have been virtually completed. It was October, however, when the picture above was taken and this brief message composed. At this writing, we are off to a fine school year with a great deal of credit for this smooth opening attributable to the Class of 1972.

Recent public school educational research indicates that, generally, the Senior class of any high school is responsible for the most school spirit, provides the leadership for underclassmen, and spearheads innovations within the school. The same research reveals that this becomes a reality because the seniors realize that the end of their public schooling is approaching rapidly, and they wish to get the very most out of the few remaining months.

I believe that the Class of 1972 will conform with the results of the cited study, and, for your efforts, you will command the respect of the faculty, administration, and your fellow students.

Every best wish for both your continued success and good health.

In Memoriam

The voices are now silent,
The hearts are now cold
The smiles and the welcomes
That met us of old.

We miss them and mourn them
In sorrow unseen,
And dwell on the memory
Of days that have been.

For weary days they did strive
Waiting for the hours that never came,
Fate had thought it best
To take them home to rest.
